

## **Sci-Art AquaWeek 2016**

### **Description of Contests for Elementary Schools**

**Nutrition and Aquaculture Quiz:** *“Kilalanin ang pagkain”*  
(27 July, Wednesday, 2–5 pm)

FishWorld's AquaWeek fits right in with the Department of Education's Nutrition Month activities in July. Elementary schools usually hold a Nutrition Quiz, which FishWorld extends to include facts about aquaculture, fisheries, and their importance to food security. Schools can hold their school-level nutrition quiz before 27 July to select the contestants they will send to the Nutrition and Aquaculture Quiz at FishWorld.

Teams of two pupil-contestants and one teacher-coach from all interested elementary schools may join the contest. Contestants are expected to know the basic concepts in nutrition, agriculture, fisheries, and aquaculture, and to recognize good food items. They should visit fresh-produce markets and see a wide variety of vegetables, fruits, grains, spices, meats, and seafood. They should also study the sample quizzes provided by FishWorld to participating teachers over the past 15 years.

The Nutrition and Aquaculture Quiz is a **read-and-answer written exam** with 30 questions, 15 of them with multiple-choice answers. In this year's quiz, the other 15 questions require contestants to **name** (in English, Filipino, Ilonggo, or scientific name) 15 actual specimens of vegetables, fruits, grains, spices, and seafood.

On contest day, 27 July, contestants register at FishWorld at 2 pm and get individual numbers indicating their seats and their quiz sheet.
