REQUEST FOR FISH HEALTH DIAGNOSTIC ANALYSIS

Regular monitoring Disease outbreak Experimental

Date: _____ Case Code: _____

Time sampled: _____ Water Type: _____

Specimen collection site: _____ Pond/tank size: _____ Stocking density: _____

Species: _____ Age/Stage: _____ Sample Size: _____

Analysis Requested: _____

Initial date disease symptoms/signs detected:

Observed symptoms/signs	Date	Time
Loss of appetite		
Abnormal swimming behavior/position		
External lesion/physical deformity		
Others (specify): _____		

Other relevant information (water filtration system, experimental treatment, feeding/diet, multi-species system, innovation, chemical treatment, etc): _____

Rearing Conditions Noted for 5 Days Preceding the Disease Occurrence

Parameter	DAY					
	0	- 1	- 2	- 3	- 4	- 5
Weather condition						
Temperature						
Salinity						
Dissolved oxygen (DO)						
pH						
Nitrite						
Ammonia						
Calcium						
Magnesium						
Turbidity						
Water exchange						
Number of affected fish (%)						
Number of dead fish (%)
