ABOUT THE TRAINING

Why join the mangrove crab hatchery training course right now?

- Mangrove crab culture can be a good source of income.
- Increasing demand in local and international markets.
- SEAFDEC/AQD is a pioneer in the development of technologies for mangrove crab seed production, grow-out and aqua-silviculture.

What can be learned from the course?

Participants will gain technical knowledge and skills in hatchery of mangrove crabs with emphasis on *Scylla serrata* for sustainable livelihood and employment generation.

Specific objectives for participants

- Participants must be able to learn the basic principles of mangrove crab hatchery.
- Participants must be able to produce mangrove crab larvae and crablets by (1) following proper broodstock management (2) producing natural food organisms (3) applying proper feeding and water management and disease prevention, and (4) learning and using proper harvest, packing and transport techniques.
- Participants must be able to identify appropriate mangrove crab technology for potential livelihood.
- Participants must be able to understand the enterprise management of mangrove crab culture.
- Participants must have increased awareness on the environmental aspects of mangrove crab culture.

What to expect in the training period?

ACCOMMODATION

The accommodation cost is not included in the training fee but lodging at the apartment facilities in SEAFDEC/AQD's Tigbauan Main Station is recommended. The air-conditioned apartment units have two single beds each and are equipped with a private bathroom. Wi-Fi and self-service laundry machines are also available. For more information and arrangements, contact the Housing Management Office at hbgnu@seafdec.org.ph and Training Section at training@seafdec.org.ph.

FOOD

A cafeteria run by a private concessionaire is available within the Tigbauan Main Station. Local diners, grilles and restaurants are available in the towns of Tigbauan (3 km east of the station) and Guimbal (5 km west of the station). Trainees with food restrictions or want arranged meals may make prior arrangements with the cafeteria manager.

TRANSPORTATION

Airport pick-up and send-off services will be provided to participants. Transportation for travel outside of the training schedule shall be on the account of the participants. Public transportation is accessible within the area in going to nearby towns or to Iloilo City (25 km away).

WEEKENDS

Some activities may be done during the weekends (hatchery activities) but when the work is done, participants are free to go to attend to their personal needs. Tours and field trips may also be scheduled during weekends.

INTERNET

The apartment building is reasonably covered with Wi-Fi internet connection. There are also hot spots within the complex where participants can access the internet.

SECURITY

Security staff are on duty 24 hours a day throughout the complex.
